Product features

A Easy and versatile mounting – adaptor mount style enables the PRODEM compactors to be mounted to any carrier in the recommended weight class

B Flow control valve (priority flow divider) regulates hydraulic in-flow to the motor and prevents over-speeding

C Specially designed cushion rubbers protect the machine and operator from vibrations

D 100% maintenance free – no greasing required due to the housing acting as an oil bath

E Heavy-duty and high efficiency gear motor with splined shaft and high-pressure motor seals prevent damage caused by pressure shock during start-up and shutdown

F Self-aligning double row spherical roller bearing provides a long service life to rotating components
